

East Ham Nature Reserve needs you!

East Ham Nature Reserve has a large population of lizards and slow worms, small mammals and a wide variety of mini-beasts. They need sunny open grassland to survive. The open areas at the Nature Reserve are being taken over by trees, brambles and ivy. We need your help to maintain it.

There are tasks for all abilities from gentle gardening to challenging tree cutting. Please come and join us.

The East Ham Nature Reserve Conservation Volunteers meet every Wednesday and the last Saturday of each month 10am-1pm.

Just turn up at the Norman Road entrance (E6 6HN) wearing suitable clothing and footwear. We provide tools and gloves.
